dollars, the amount of State financial support made available for special education and related services per child with a disability during State fiscal years (SFYs) 2021 and 2022. This information must be entered in the chart titled “Per capita amount of State Financial Support Made Available for Special Education and Related Services for Children with Disabilities” under Section V.A, and is in addition to the MFS data on a total basis that the State is required, at a minimum, to provide in the first chart. “State financial support,” as referenced in 34 CFR § 300.163, includes all State funds made available for special education and related services for children with disabilities, as those terms are defined in the IDEA, including State funds provided to local educational agencies, to the State educational agency, and to other State agencies for that purpose. For purposes of completing this section, an SFY is referenced according to the year in which it ends. That is, if a SFY begins on July 1, 2022 and ends on June 30, 2023, then that SFY is considered SFY 2023.

Section V.A must be certified by the State Budget Officer or their authorized representative.

If your State has revised its Significant Disproportionality procedures or has any questions regarding Section V.B. of the grant Application, please contact your OSEP State Lead before the Application due date.

² The Significant Disproportionality Reporting Form is a fillable PDF form that States must use to provide the Department data and information on how the State is examining significant disproportionality within the State.
